

Jack Dalson

Acting Blood Bank Supervisor | Medical Laboratory Technologist

Multan, Pakistan | +92-3XX-XXX-XXXX | jack.dalson@email.com | LinkedIn: linkedin.com/in/jackdalson

Professional Summary

MLT professional with 6 years of experience across blood bank and core lab operations. Hands-on in routine ABO/Rh grouping, crossmatch support, component issue, cold chain logs, and basic QC documentation. Currently supervising an evening shift and building leadership skills; has broader exposure to hematology/chemistry workflows and LIS reporting (not yet a full-time blood bank manager).

Core Competencies

- ABO/Rh grouping, crossmatch support (routine cases)
- Component issue and emergency coordination (ER/OT/ICU)
- Cold chain monitoring and stock rotation logs
- Shift supervision and duty roster support
- Reagent QC, basic equipment documentation
- Hematology/chemistry rotations and LIS entry/reporting

Professional Experience

Acting Blood Bank Supervisor (Shift) - District Headquarter Hospital, Multan *Aug 2023 - Present*

- Supervise evening shift workflow for a small team; ensure handover notes, temperature logs and issue registers are completed.
- Perform/verify routine ABO/Rh and compatibility testing; issue PRBC/FFP/platelets for urgent and scheduled requests.
- Support basic incident logging and preliminary transfusion reaction checks; escalate complex serology to senior staff/pathologist.

Medical Laboratory Technologist (Rotations) - Private Hospital & Diagnostic Services, Multan *Jun 2020 - Jul 2023*

- Worked across blood bank, hematology and chemistry sections; managed sample reception, labeling and LIS entry per SOPs.
- Blood bank rotation: routine grouping and crossmatch support; assisted with component storage/distribution under supervision.
- Hematology/chemistry: ran CBC and biochemistry panels; completed daily QC, maintenance checklists and basic troubleshooting.

Education

BSc Medical Laboratory Technology (MLT) - Bahauddin Zakariya University (BZU), Multan *2014 - 2017*

Certifications & Training

- In-house training: blood bank biosafety, cold chain handling, and documentation standards
- Workshop: basics of ISO 15189 documentation and internal QC (2022)

Technical Skills

Immunohematology (routine): ABO/Rh, crossmatch support | Documentation: QC logs, issue registers, Excel summaries | Systems: LIS, MS Office | General lab: hematology and chemistry analyzers (rotational exposure)
